

PUBLIC NOTICE

The Baltimore City Department of Public Works, in coordination with Parkton Village, LLC, c/o Sage Management, LLC, is accepting public review and comments for a request to issue an Administrative Waiver¹ to the City Code for Parkton Village, a twenty-five unit townhouse development located at the southwest intersection of Parkton Street and Thornfield Avenue.

Notice is hereby given that the public is invited to comment on the request by Parkton Village, LLC, c/o Sage Management, LLC for an Administrative Waiver to the requirements of the City code which will allow the construction of the development to be governed by the provisions of Division II, as reflected on May 4, 2009. The project is eligible for an Administrative Waiver since it received Preliminary Project Approval on or before May 4, 2010. The Preliminary Project Approval was granted on April 22, 2010. Comments on the request for the Administrative Waiver must be received by 5:00 pm on September 24, 2010, to ensure consideration by the Department.

Parkton Village, LLC, c/o Sage Management, LLC proposes to build twenty-five (25) townhouses on a lot located at the southwesterly intersection of Parkton Street and Thornfield Avenue. The proposed improvements include:

- Partial removal of an existing wooded area, clearing, grubbing
- Construction of twenty-five (25) town homes
- Installation of public water mains, sanitary sewer and storm drains

¹ As pertains to the Baltimore City Stormwater Ordinance and Guidelines

- Installation of paving for a private road (Amelia Circle) and installation of sidewalks
- Installation of underground storm water quality and quantity control facilities
- Onsite utility connections
- Landscaping

In order to meet the 2010 Baltimore City SWM Ordinance requirements for the proposed improvements, an Administrative Waiver must be granted by the Department that will allow the project to proceed in accordance with the stormwater regulations that existed prior to May 4, 2010. To meet the prior stormwater management regulation, the project includes construction of underground storm water quality and quantity control facilities.

Report
